Web Announcement 2371

Attention All Providers: COVID Monoclonal Antibody Treatments

In an effort to better connect COVID-19 positive individuals with the available monoclonal antibody infusions, the Nevada Board of Pharmacy has created a pilot service locator for infusion sites. Nevada Department of Health and Human Services (DHHS) and Nevada Medicaid encourage providers to provide information regarding the locator and available resources to recipients.

The pilot site is live at: <https://locator.infusioncenter.org/covid>.

Service locations will be added as codes are added to the Medicaid system for service coverage.

Nevada Medicaid will cover the infusion and is actively working to determine rates. The drug is currently free for Medicaid recipients. Nevada Medicaid will continue to monitor code and fee changes.

As always, provider input is valuable and welcome. For questions, email: DHCFP@DHCNP.nv.gov with "COVID" in the subject line.
